

Muhammad Maaz

Full-Stack & Agentic AI Developer

mmaazy2547@gmail.com | [LinkedIn](#) | +92-348-8859462
Karachi, Pakistan | [Portfolio](#)

Core Competencies

AI & Agentic Systems

Multi-Agent Architectures

Spec-Driven Development

Digital FTEs & AI Workers

RAG & Vector Embeddings

OpenAI Agents SDK

Tool Integration

Workflow Automation

Task Planning & Memory

Prompt & Context Engineering

Skills

Backend & Databases

Python, FastAPI, Node.js, PostgreSQL,
Prisma, Supabase, Qdrant

Frontend

Next.js, React.js, TypeScript, JavaScript,
Tailwind CSS, GSAP, Zustand, Streamlit

Cloud & DevOps

Docker, Kubernetes (fundamentals &
deployment), GitHub Actions, Vercel,
Render, Railway, Hugging Face, Chainlit

Tools

Git, GitHub, Figma, Sanity CMS

Professional

Problem Solving, Communication, Team
Collaboration, Adaptability, Continuous
Learning

Education

Governor's IT Initiative

AI, Web 3.0 & Metaverse — Govt. of Pakistan
2025 - 2026 (Ongoing)

Intermediate — Pre-Engineering

2023 - 2024

Matriculation — Science

Read Foundation High School, AJK

Certifications

Generative AI Application Developer

★ Top Performer Awarded

UETIANS Lahore Endowment Foundation,
USA — with NCEAC-HEC & Pak Angels
Gen-AI Training, Cohort 3 · Mar - May 2026

Work Experience

Agentic AI Developer | [DigiCop Solutions](#)

May 2026 - Present

- Designed & deployed **multi-agent systems** using **OpenAI Agents SDK** with reasoning-based workflows and API integrations.
- Built production-grade **RAG pipelines** with LangChain & OpenAI Agents using **Qdrant** and **ChromaDB**.
- Architected agentic & RAG-based solutions to enhance **operational efficiency** and AI automation.

Mathematics Teacher & Office Administrator

[Diamond Public Schooling System](#) — Zafar Town, Malir, Karachi

2023 - 2025

- Two successful years at a premier institution known for academic excellence.
- Taught **Mathematics** across diverse grade levels.
- Managed administrative & front-office tasks and parent/public communication.
- Coordinated staff and daily school operations.

Key Strengths

- **Focus:** Advanced AI Engineering, Agent Systems, Cloud-Native Development & Multi-Agent Architectures.
- Builds **Digital FTEs** & autonomous **AI Workers** that operate 24/7, using **spec-driven development** for reliable, well-defined systems.
- **End-to-end ownership** — from concept to deployed, scalable applications.
- Hands-on expertise in **Agentic AI** and production-grade **RAG** implementations.
- Strong problem-solving mindset with rapid learning and iteration.
- Real deployed systems backed by a public portfolio — not just tutorials.

Featured Projects

I build real things, not tutorial clones.

WhatsApp Support-Ticket Automation — Silent Agentic System

Python, Agentic AI, Local LLM (On-Prem), Google Sheets API

Privacy-first agent that silently monitors a WhatsApp support group, filters chatter, and auto-files structured tickets to Google Sheets — runs on a local LLM, so no data leaves the org.

AR Book Mart — Full-Stack E-Commerce Platform

Next.js, React, TypeScript, Tailwind, Sanity, Prisma, PostgreSQL

E-commerce platform with CMS, checkout, payments, admin panel, PDF invoices and responsive UI.

Digital AI Employee — Multi-Agent Automation (In Development)

OpenAI Agents SDK, Python, FastAPI, RAG, Docker, Kubernetes

Autonomous multi-agent system with task planning, memory, tool integration and workflow automation.

Physical AI & Humanoid Robotics — RAG Chatbot

FastAPI, Qdrant, Next.js, Multi-Agent Architecture, RAG

Domain-specific RAG chatbot with semantic search, multi-agent reasoning; deployed on Vercel/Render.

AI-Powered Task Management System

Next.js, FastAPI, OpenAI API, PostgreSQL

Smart task manager with NLP task generation, reminders, authentication and persistent storage.

Agentic Essay Pilot

Next.js, OpenAI API, Agentic AI, Vercel

AI writing assistant for topic analysis, outline planning and essay generation.

ZaraatAI — Crop Disease Detection System

Next.js, Node.js, TypeScript, Tailwind CSS, GPT-4 Vision

AI crop disease detector with bilingual output, treatment suggestions, PDF reports and medicine recommendations.

Dynamic CV / Resume Builder

Next.js, TypeScript, Tailwind CSS, Vercel

Resume builder with customizable templates, live preview and real-time editing.

Professional Highlights

- 6+ Deployed Projects
- AI Automation Solutions
- Digital FTEs & 24/7 AI Workers
- Spec-Driven Development
- Full-Stack Web Applications
- RAG & Agentic Workflows
- Docker & Kubernetes
- Modern DevOps Practices
- Scalable System Design
- User-Focused Development

Why Work With Me?

- AI & Full-Stack Developer
- Builds Digital FTEs & AI Workers (24/7)
- Production-Ready Projects
- Multi-Agent AI Systems
- RAG & Automation Focus
- Cloud Deployment Experience
- Problem-Solving Mindset
- Fast Learner & Self-Taught
- End-to-End Product Building
